Jack Terry was born in West Texas as a fourth generation Texan. He began his art career as a young child drawing inspiration from his rancher grandfather and west Texas painting grandmother. With support and encouragement from his parents, Terry pursued his love of painting and by the age of 16 won more than 130 awards. As a graduate of the University of Texas, he studied anatomy and design while displaying his paintings in various galleries throughout the State. Terry's big break came at 26 when he was named Bicentennial Artist of Texas; he had a one-man show in the Texas Capitol Rotunda and was commissioned to paint the late President Lyndon B. Johnson. This light weight over/under won’t break your back or the bank! Weighing in at just 6 lbs, it is a full 2 lbs. lighter than similar steel-framed models, making it one of the lightest in its class. Available in both 26” and 28” models, this gun is ideal for long days in the field. The metal is coated with a non-reflective, weather-resistant matte finish and the stock is sport-styled.

The Upland Ultralight operates with clockwork precision and consistency due to CNC-cut aluminum alloy frame, allowing the inner mechanical parts to work flawlessly. On the exterior the most noticeable differing characteristic is the lack of a mid-rib between the barrels

Located only 1:20 from the Cordoba airport, the lodge is strategically located only 15 minutes from the heart of Argentina’s most desirable hunting region the Macha roost. The 9-bedroom lodge was built in 1874 as a hitching post and boarding house for South American Pony Express riders. The lodge has undergone some incredible restorations and constant renovations. These days Sierra Brava is one of the most unique dove hunting lodges in Cordoba, offering a beautiful balance between authentic old world charm and modern luxury living. All rooms are very spacious with high ceilings and each has its own private bathroom. A beautiful pool and sauna was built since clients spend more time around the lodge and less on van rides.
